

Algae Maceration and Centella Asiatica Gel

The infinite benefits of these unique products are evident in the skin after a very short time.

Centella Asiatica Gel- A healing and hydrating skin gel derived from plant extracts that improves the skin condition. Suitable for all skins including those suffering with eczema psoriasis, dermatitis, An excellent repair for helping with fresh stretch marks and fresh scarring.

Centella is excellent for sunburn and may be applied after dermal therapies. This serum/gel can be used day /and or/ night under a treatment crème for the best results.

Algae Maceration - A 100% Fucus Seaweed extract containing a wealth of components including vitamins, minerals and trace elements needed to provide the skin with the proper functioning of our organs to produce healthy skin, hair & nails.

Algae Maceration helps to increase cutaneous blood circulation and has a rapid penetration and diffusion into our cells that provides a topical application of vitamins and minerals. This product has the feel of a oil, but it is a water based serum.

This seaweed solution is best used in a program protocol for all skin types.

PROTOCOL

Applied on a clean skin every night for 1 month, all over the face and neck (and body if needed), and over the top apply Centella Asiatica Gel. The size of a 5cent piece is enough of both products.

After 1 months use of Algae Maceration, you should have a break of 1-2 months, treat with skin with active night products, and then repeat the above protocol of Algae Maceration And Centella Gel, for another month. Some people use it ongoing and still see benefits. This should be repeated the entire time you are using the products. This ensures that you are getting the most from your skin care regime.
